

## AMEA Power participates in the 24th World Energy Congress and Exhibition

**Dubai, United Arab Emirates, March 10, 2019** – The UAE Organizing Committee of the 24th World Energy Congress announced today the signing of an agreement with AMEA Power, a fast-growing developer, operator and owner of power assets with headquarters in Dubai, to participate in the exhibition of the the 24 World Energy Congress, which will be held from 9-12 September, 2019 at the Abu Dhabi National Exhibition Centre (ADNEC). Visitors and delegates are invited to visit the company’s stand No. H6-210, where one will be able to meet with senior members of the team and discuss synergies and opportunities within the energy sector.

The agreement was signed in Dubai by H.E. Dr. Matar Al Neyadi, Undersecretary at the UAE Ministry of Energy and Industry, and Chairman of the UAE Organising Committee for the 24th World Energy Congress and H.E. Mr. Hussain Al Nowais, Chairman of AMEA Power during the Middle East Electricity Exhibition in Dubai.

Following the announcement, **H.E. Dr. Matar Al Neyadi**, said: “we welcome the participation of AMEA Power among the leading companies in delivering sustainable energy solutions at the 24th World Energy Congress. AMEA Power will play a vital role as a leading independent power developer across emerging markets therefore, their input and presence at the event is significant”.

**H.E. Hussain Al Nowais** said: “AMEA Power is honored to have been invited to join the exhibitors Companies in the 24th World Energy Congress. We continue to be committed to playing a key role in ensuring that the future global energy demand is met. Therefore, its presence at this event which brings together industry stakeholders and experts is vital.”

## **About the World Energy Congress**

The triennial World Energy Congress is the world's largest and most influential energy event covering all aspects of the energy agenda. Running since 1924, the Congress enables dialogue among Ministers, CEOs, policy-makers and industry practitioners on important developments in the energy sector. A flagship event of the World Energy Council, the Congress offers a unique platform for global energy leaders to explore new energy futures, critical innovation areas, and new strategies. The Congress has been staged in over 20 cities across the world.
